## Education

- Since 2020     **AGH University of Science and Technology, Kraków, Master**  
Biomedical Engineering - Computing and Electronics in Medicine
- 2016 - 2020     **AGH University of Science and Technology, Kraków, Bachelor**  
Biomedical Engineering

## Skills

- Web Dev     **HTML, CSS, JavaScript, Bootstrap, TypeScript (basics).**
- Coding     **Basics - Python, PHP.**
- Databases     **Basics - MySQL.**
- Languages     **Polish - native, English - B2, Spanish - beginner.**
- Other     **Experience working with Linux (Ubuntu), basics of Git, unit testing with JEST, learning Node.js and Sass.**

## Employment History

- 2017.07 - 2017.08     **Activ** Free time entertainer in Paraiso Playa (Fuerteventura, Spain).
- 2018 - 2019     **Lekta AI** Language transcription, working in Automatic Speech Recognition team.
- 2019.06 - 2019.09     **Medical Simulation Technologies** Intern, heart structures segmentation - Slicer 3D.
- 2019.08 - 2019.11     **Jagiellonian University - Collegium Medicum** Clerk, procurement department, apparatus section.

## Extra activity

- Currently I am taking part in CodersCamp (web development bootcamp) where I work on multiple projects which are on my GitHub account (in this moment my team and I are developing Bomberman game using TypeScript) and I can deepen my knowledge about technologies such as: JavaScript, TypeScript, Node.js, React and Redux. I created simple schema for bomberman using Figma.
- My studies projects are hosted on my GitLab accounts (some of them are private), projects implemented during bootcamp are on my GitHub account. During studies I worked with languages like: C, C++ (and Qt for GUI), Python, Matlab, PHP but web development is what got me interested in programming, especially - front-end side.
- To boost my programming skills I switched to Linux (from Windows) to practise terminal operations and some of trivial operations like merging pdfs I do using it.
- In free time - sport activities (during pandemic not taken care of properly) e.g. trekking, swimming, volleyball (I was professional player and played for SMS Opole for 8 years).
- Cooking, traveling (abroad and in Poland), watching dog training videos.
